IDEAS BEHIND THE PROJECT - Key Motives

Contributing to overall reform process of University of Montenegro initiated in 2014 by the new management;

Recognizing the importance of the sole public law faculty in Montenegro for overall efforts of Montenegrin society and of the State of Montenegro in reaching European political, economical and legal standards and becoming an EU Member State – ongoing process of accession negotiations is essentially the alignment of Montenegrin legal and institutional system with that of the EU

Taking proactive approach by enhancing the capacity of the sole public university in Montenegro to prepare Montenegrin lawyers for implementing EU law (especially treaties and regulations) on everyday basis and representing Montenegro in EU institutions;

Key objectives of the project

Study visits – for proper training for FoL UoM academic staff

Confirming that curricula of the various courses linked to various aspects of EU law are compatible with such courses in EU Member States

Assessment of the newly accredited general curriculum

Producing a guidebook/reference manual on teaching and researching various aspects of EU law in Montenegro

Improving the overall technical capacity of the FoL UoM by acquiring:

- new IT equipment
- up to date legal books
- access to legal science literature databases
