## “Strengthening Capacities for Higher Education of Pain Medicine in Western Balkan Countries”

### **The main aim:**

Increase quality of education in pain medicine to the improvement of public health care services in EU partner countries.

Large percentage of the population who suffers from cancer, rheumatic and neurological diseases, while education in the field of pain medicine is insufficient.

## “Strengthening Capacities for Higher Education of Pain Medicine in Western Balkan Countries”

Developing an interdisciplinary program in Pain Medicine under / postgraduate studies.

Applying new methodologies and specific learning outcomes and partner country universities.

Moreover, one of the aims is establishment of academic network that would allow the exchange of knowledge of health care workers in Serbia, Montenegro and Bosnia and Herzegovina.

# “Strengthening Capacities for Higher Education of Pain Medicine in Western Balkan Countries”
