### What to expect in the next Erasmus+ programme cycle? Open Calls for Applications

Known as Erasmus+ since 2014, when it enlarged its scope of activities, this emblematic programme is ranked by Europeans as the EU's third most positive result, just after free movement and peace.

"The fact that the Erasmus+ budget for the next seven years has almost doubled shows the importance given to education, life-long learning and youth in Europe. Erasmus+ remains a unique programme in terms of its size, scope and global recognition, covering 33 countries, and accessible to the rest of the world through its international activities. Thanks to Erasmus+, we will make the European education area a reality." Mariya Gabriel, Commissioner for Innovation, Research, Culture, Education and Youth
